FEBRUARY 16, 2005 AND FEBRUARY 17, 2005 INTERVIEW SUMMARY

On February 16, 2005 and February 17, 2005 telephonic interviews were held between Keith Tackett (an attorney of record) and Examiner Bueker regarding the amendments presented in the Second Response to Final Rejection submitted on December 17, 2004 and the Supplemental Information Statement submitted on January 18, 2005. Examiner Bueker indicated that the Second Response to Final Office Action addressed all issues set out in the Advisory Action mailed on November 18, 2004.

Examiner Bueker further indicated that the *Lorimer* reference (WO 98/48168) listed in the Supplemental Information Statement raised new issues since Figure 10 shows a chamber comprising valves that abut a pump and would support a new ground of rejection. The Applicant discussed the term "abutting" in the pending claims and that the external valves are not part of the chamber. The pending application mentions slit valves that are internal to the chamber surfaces and do not prevent the pump from abutting the chamber.

Respectfully submitted,
